Confirm Requirements	Install OverDrive Media Console app	Authorize the app with an Adobe ID

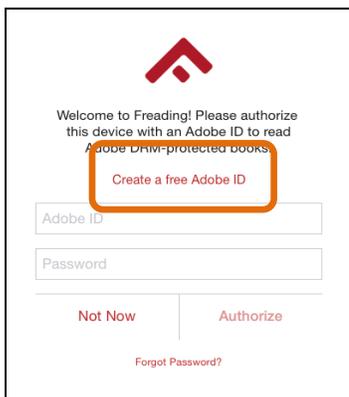

1. **Confirm requirements.** You need iOS version 8.4 or newer to use the e-book app. You may need to update your device's software if you have not done so recently. To find out what version of the iOS you have, go to "Settings" () , then "About." (For help with updating, you may need to check the support information for your device.)

2. **Install the Software.** Go to the App Store on your device (look for the icon at left)

and search for the free Freeding app () . Install it. You will need the password for your Apple/iTunes account to install the app.

3. **Authorize your app** with a free Adobe ID. This lets you use the same digital account on multiple devices. You may be prompted to authorize your device the first time you use the app.

< When you first open the Freeding app, you will see an authorization screen like this one.

Tap on "Create a free Adobe ID."

Many people find it easier to set up an Adobe ID using a computer rather than on a smartphone or tablet. Go to <http://www.adobe.com/cfusion/membership/index.cfm> to set up an Adobe ID.

To change your Adobe ID at any time, locate the Settings (  ) button in the top menu of the Freading app. Select “Authorize” under “Enable Adobe Books.” Then follow the instructions in the previous section.

## How to add items to your Library:

Anytime you are ready to download new books and audiobooks, you can do so directly on your device.

2. You will be directed to the library’s Freading site. Click the black Login button (  ) in the top right, and **log in with your library card and PIN.**

The first time you access Freading, you will also have to choose your library before you are asked to log in. The form to find your library looks like the one at right.

In the future, you will not see this selection screen again as long as you stay logged in to your account (which is preferable on a private device).

There is also a Search box you can use to find an author or title you are interested in.

- Tap the “**Download epub**” or “**Download pdf**” link below the title to check the book out and download it. If you have a choice of formats, choose EPUB, which offers more formatting options.

## Downloads per week (“Weekly limit”)

Your “weekly limit” is the number of Freading downloads you can make per week. At SCL, you are entitled to 6 downloads per week. Unused book loans roll over each week for up to 4 weeks (weeks running from Monday to Sunday). Then they reset to 6, the new starting amount.

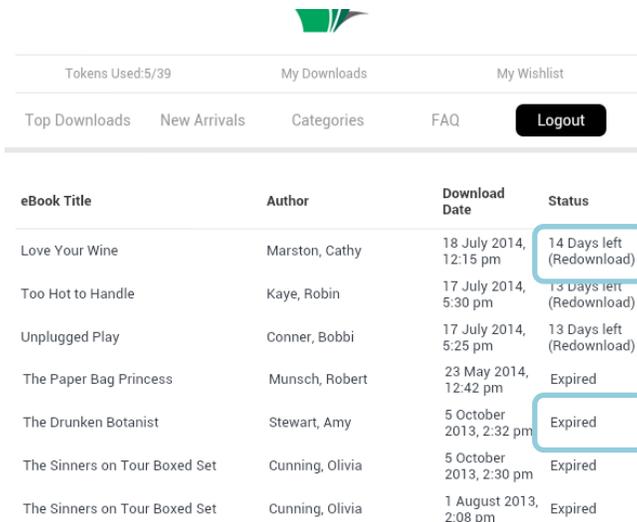

## Renewing Titles

Freeding allows you to renew titles that are expired and re-download books that are still active on your account. Renewing a title does not usually use up one of your downloads/week.

- Open the Freeding app on your device and select “Get Books” from the bottom menu. Login to your account on the Freeding site, if you haven’t already done so. Select “My downloads” from the top menu:

- In the list of your current and recent checkouts, the right hand column will state the status of each title.

## Returning/Deleting Books

There is no need to return books early from Freading. However, you can delete books you don't want on your device any longer. On the Library screen (where the book covers are visible), tap on the trash can

button (  ) in the top right corner. You will be taken to a menu display of your books where you can select which ones you want to delete.
